Mach™ 9e

Coin sorter/counter

High speed coin processing for high volume applications

The Mach 9e is a high speed, heavy duty coin sorter applicable to high volume processing centres where throughput and reliability is paramount.

Mach 9e is the perfect solution for financial processing centres, vending and transportation companies and gaming houses. Highly configurable, Mach 9e can track and consolidate management information for report generation or transfer count data to a reconciliation system.

Glory Global Solutions is a World Expert in cash management, delivering technology and solutions that provide security, productivity and innovation to our customers. These solutions are supported by the technical expertise of GLORY Group of Japan, the pioneer in development and manufacture of money handling machines across the financial, retail, vending machine, amusement and gaming industries for nearly 100 years.

Across the world, Glory Global Solutions is trusted by thousands of organisations to ensure their cash is managed securely and efficiently whilst delivering the ultimate in productivity. 2,500 professionals, including over 1,300 service and support staff and 350 business partners cover over 128 countries delivering these solutions – wherever money moves.

Mach™ 9e – Technical Information

Mach™ 9e

Throughput is the truest measure of productivity and can only be achieved when a coin sorter operates uninterrupted. The Mach 9e patented sorting system ensures trouble free operation and unrivalled performance. Because of this, the Mach 9e is the ideal solution for customers processing significant volumes of coin. From the convenient workstation top to the quick release bagging spouts and easy to read full colour display, Mach 9e enhances any operation where productivity and accuracy is the top priority.

Processing speed	Up to 6000 coins per minute (18mm)
Coin size range	Diameter: 15.0 to 32.5mm Thickness: 1.0 to 3.0mm Sorting differential: 0.5mm (minimum)
Sorting capability	Up to 9
Inspection pan	Extended pan – up to 10,000 coins (18mm) depending upon coin mix
Coin feed capacity (internal hopper)	Up to 10,000 coins (18mm)
Operating languages	English, German, Spanish, French, Italian
Exact bag stops	Standard
